Community Feedback

Electric Greenway Trail Project – Open House 2

Community Feedback on Draft Alignment Layout

Date: May 21, 2019

Location: Sunrise Tech Center, 7322 Sunrise Boulevard, Citrus Heights

Woodside Oaks / Olivine Dr Open Space

No comment from residents.

Woodside Oaks / Olivine Dr Open Space Cont'd

- Improved Access to P.D and fire will be great.

C-Bar-C Park.

- Restrict electric bikes?

C-Bar-C Park Cont'd.

No comment from residents.

Northwoods Park

No comment from residents.

Streng Ave Open Space

1. Is there a speed limit on the trail
2. Bollard lighting to limit light into back yard
3. Safety concerns for special needs grandson.
Noise of trail users. Disrupting our dogs

Sundance Natural Area to Woodmore Oaks Dr

1. Improve lighting.
2. Problem w/ running the stop sign. Flashing stop?
3. Lighting all Highwood
4. Crumbling sidewalk due to tree. Need to replace sidewalk.

Tempo Park to Fair Oaks Blvd

1. This area floods
2. Tree overhang will block the light. Trim trees?

Sunrise Blvd to Tempo Park

No comment from residents.

Electric Greenway Trail Project – Open House 2

1	Jeff D.			I don't live in this area, but it looks like a good project - all my questions were answered well/completely. I like that there is an interactive design option.
2	Mrs. Turner	turner3@ix.netcom.com	916-725-7109	Card 1: There are many older people who walk in Sundance Park and they do not need to put up with lots of bikes. The animal need a place to live and the Arcade Creek needs to be left alone. There are crawdads, frogs, tadpoles, little fish, ducks, herions that use the creek along with lots of native birds. Card 2: Sundance Park has been set up as a Natural Wildlife Area and no way should an asphalt bikeway be put in as it was set up with decomposed granite an needs to remain a cool, soft walkway, for animals and people who walk. Highwood Way, Chipwood Way and WOODmore Oaks are dangerous narrow subdivision roads with redwood trees and cars that block peoples views
3	Dennis Turner	turner3@ix.netcom.com	916-725-7109	Card 1: I am concerned that people coming from Sundance Park will enter both Highwood and Chipwood. These streets are both Narrow and have Blind Corners. With cars parked legally on both sides of the streets, one care can barely fit between the parke cars. We already had a head-on collision on Highwood. Using these streets is a safety issue!!! Card 2: Using Woodmore Oaks will be a safety issue! Car go up to 60 mph and run stop signs now. You had better have maked bike lanes & have law enforcement patrol this area or someone will be killed.
4				Question 5 Cost 10% - 12% local transportation funds \$290,000 to \$348,000 What about over cost for project is it still 10% to 12% Question 7 Lower profile solar poled LED lighting No Sun No Light Question 15 Trail open till 10 PM Dark at 5 PM during the winter Dark at 9 PM during summer
5	Jim Bennion	deetben@gmail.com	916-723-6322	I live on Highwood Wa, which is to become part of the trail/path. I am concerned about there not being any proper lighting on the street. Also worried about the increase in traffic (foot, bicycle, etc. . .) from users of the trail. What kind of security will be used and how often can I ex[ect them to be on Highwood Way? Why can't the trail follow the powerlines instead of using Highwood Way? I know there is some private property concerns. But has anyone talked to the owners of the affected properties to see if they will sell?
6	Stan Munoz			Great area design . . . Many neighborhood will have access to the trail including me. I am off Oak Ave. Very versital . . . Bikes or walkers! Great

7	Jim MacNicholl	jmacnich@me.com	443-956-8540	Great plan. I am fully supportive of the Electric Greenway Trail Project
8	Gita Esfahani	gitysafta@gmail.com	415-601-3702	I just learned about the Citrus Heights Electric Greenway Trail Project. I think this is a project that will contribute to a healthy lifestyle. Specially getting the neighborhood involved by putting in their feedback. It will encourage the community to get involve and have their opinion heard. Thank you for this great project.
